

# THE EASIEST LOADING AND UNLOADING PORTS

Protect your craft and enjoy fast, convenient access to the water with a HydroPort Series PWC Docking Platform.

HydroHoist offers two docking platforms — the HP Pro and the newest version the HP Extreme. Both PWC ports offer fast, convenient access to the water and feature an exclusive bow bumper, and soft rest for the keel and a tapered entry with rollers to help center your craft. Our PWC ports make launching easy and convenient — so you spend more time on the water.

## STANDARD FEATURES

- Ultra-tough polyethylene construction
- In-line rollers make launching easy
- Patented bow bumper and molded-in tie down
- Front- or side-mount for both fixed and floating docks
- Connecting hardware links multiple front-mounted units together (optional)
- Available in blue and tan

## PERSONAL WATERCRAFT DOCKING PLATFORMS

### RECOMMENDED FOR

- One-, two- and three-seat PWCs
- Floating or fixed docks
- Front- or side-mount installations

### TECHNICAL SPECS

- Length: 12' 6" / 3.81 m
- Width: 4' 10" / 1.47 m
- Depth: 15" / 0.381 m
- Weight: 270 lbs / 122 kg
- Max. Capacity: 1,625 lbs / 737 kg

- Universal mount for floating or fixed docks (pictured with optional heavy-duty brackets)

- Rigid Mount Hardware for floating docks

The **HP Extreme™** is the easiest load and launch of any PWC docking platform on the market. Your PWC will be fully roller-supported utilizing high-performance rollers and placement that is easily adjustable to accommodate any craft. The platform is made from ultra-tough Polyethylene Plastic (HDPE) and filled with Expanded Polystyrene (EPS) Marine Foam for increased strength and leak elimination. Our exclusive bow bumper slows your craft's forward motion and provides a soft rest for the keel. In-line rollers make launching easy and convenient.

### FEATURES

- PWC is fully roller supported
- Easiest load and launch of any PWC docking platform
- Ultra-tough polyethylene construction with Expanded Polystyrene (EPS) Marine Foam — Increased strength and leak elimination
- Flat anti-skid walking surfaces
- CNC molds for exact form, function, and fit
- Fourteen high-performance 5" x 2" rollers
- Exclusive "Air-Pillow" bow stop
- Stainless steel roller axles for increased strength and compatibility with fresh, brackish, and salt water
- Roller width and placement is easily adjustable to accommodate different models of watercraft

### TECHNICAL SPECS

- Length: 13' 6" / 4.11 m
- Width: 4' 10" / 2.94 m
- Depth: 11" / 0.26 m
- Depth at Bow Stop: 17" / 0.43 m
- Weight: 390 lbs/176.9 kg
- Max. Capacity: 1,625 lbs/737 kg
